245W solar panel configuration

just replaced my old hybrid inverter (2000w) with an eco 24v 3000w, now it said on the tin max 1500w input i have laying on a flat roof x2 400w panels and x2 245w panels, i would like to replace the x 245w with another x2 400w panels, guessing as the panels are flat they will never reach there full output to over load the inverter,
