

Back-mounted UPS uninterruptible power supply

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) helps prevent sudden shutdowns, data loss, and hardware damage by providing backup power when your main electricity fails. For home users, a UPS can protect desktop PCs, gaming consoles, and smart home devices from unexpected power cuts.

Can a UPS battery backup cause a power outage?

In other words, if you experience a power outage in your area, your machinery should not shut down if it is plugged into a UPS battery backup. Many models of uninterruptible power supply (UPS) also provide surge protection. A surge protector blocks spikes in voltage so that they do not harm your electronics.

Do smart devices need an uninterruptible power supply (UPS)?

Many smart devices have built-in battery packs, with modern laptops packing enough cells to last a whole day. However, typical desktop computers, routers, and similar devices still need to be plugged into a power source all the time to work. That's where an uninterruptible power supply (UPS) comes in.

What is a UPS & how does it work?

What is a UPS? UPS stands for uninterruptible power supply, it's a device that acts as a battery backup in case of an electrical power failure. Small UPS machines for homes and offices supply enough power for a few minutes, so there's time to turn off devices properly without losing any work.

Does a UPS battery backup need to power up?

Unlike a backup generator, it does not need to power up in order to start generating power. In other words, if you experience a power outage in your area, your machinery should not shut down if it is plugged into a UPS battery backup.

Does a UPS have a battery & a power supply?

In most cases, a UPS incorporates a battery, a surge protector and a power supply in one unit, but most uninterruptible power supplies also have additional filters (RFI/EMI noise filtering and Automatic Voltage Regulation or AVR) that protect your equipment in case of brownouts, without relying on the battery power.
