

Bolivia quality ups uninterruptible power supply agent

What is an uninterruptible power supply?

An uninterruptible power supply is an electrical apparatus designed to furnish emergency power even when other sources of input power fail, and they are indispensable tools within a huge number of unrelated industries.

What is a Delta ups?

With its wide range of Uninterruptible Power Supplies(UPS),Delta offers a competitive edge to businesses in need of first-rate power solutions. Delta UPSs are designed to ensure that companies can protect their mission critical applications by maintaining a steady flow of energy under adverse circumstances.

Why should a business use a Delta ups?

Delta UPSs are known for efficiency and for saving not just energy, but money that would be wasted by less advanced devices that require too much power. The growth of a business should never be at risk of limitation or delay due to avoidable technical restrictions of existing power hardware.

What is the difference between Agilon & Amplon ups?

The Agilon UPS family provides off-line UPSs up to 1500 VA for personal computers, peripherals, and home appliances. Devices in the Amplon UPS family offer single-phase online UPSs with power ratings up to 10 kVA for servers and networking equipment.
