

Brand new outdoor power field in Muscat

Where is Oman's new solar project located?

Located approximately 120 kilometers south of Muscat city, this 500-megawatt (MW) solar project is poised to set a new standard in Oman's solar power market.

When will Oman start its solar PV project?

Oman's solar PV project will begin with the commercial launch of Manah I and Manah II Solar PV IPPs in 2025. By 2029, Oman aims to achieve a solar PV generation capacity of around 3,500 MW.

What are the objectives of the Oman power project?

The objectives of the Project are to: (a) increase the availability of the renewable power generation capacity and improve the balance between supply and demand during the peak hours in Oman's Main Interconnected System grid which serves Muscat and northern Oman.

How much solar power will Oman have by 2029?

By 2029, Oman aims to achieve a solar PV generation capacity of around 3,500 MW.

What is Oman's wind-based generation capacity by 2029?

By 2029, Oman aims to achieve a solar PV generation capacity of around 3,500 MW. This will be complemented by an estimated 800 MW of wind-based generation from new wind farm projects planned across various governorates.

How will Manah 1 impact Oman's energy transition plan?

Once operational, the Manah 1 project is expected to power 50,000 Omani homes and offset over 780,000 tonnes of CO₂ annually. Ko, Youn Ho, Managing Director Overseas Business of KOWEPO, expressed their dedication to working alongside their partner to support Oman's energy transition plan.

Its gas fields and processing plants are operated exclusively in behalf of the government of Oman. The company's concession area spans 90,000 square kilometres, which is one third of the geographical area of Oman. It has 205 producing oil fields, 64 gas fields, 29 production stations, and over 8,400 active wells.

The Salalah 2 IPP is a greenfield development with high efficiency gas fired power generation plant that can deliver 445 MW of power, and will be located in Raysut, Oman. This transaction also includes acquisition of Dhofar Generating Company (DGC), which currently owns and operates an existing 273 MW natural gas fired power plant.

Al Jizzi Transformers & Switchgears SAOC, an ISO 9001:2015 Omani company established in November 1996, is one of the first full fledged electric transformer manufacturers movers in the Sultanate of Oman. AJTS was fully acquired in 2017 by Valquest (VQ) One Power SAOC, with a plan to further modernize and expand
