UBC75010-S - UUGreenPower is a world-leading EV full-scenario DC fast charging solution and core components supplier. It provides customized charging pile power source modules and charging modules for world charging pile operators, battery swapping station operators,

Charging-pile mainly includes DC and AC charging piles, AC charging piles are special for charging the small electric vehicle with on-board charger, and DC charging piles suit for the quick outdoor charging of electric vehicle, which can be compatible with majority of pure electric vehicles and suit for electric buses, electric vehicles with different models and different power.

The inverter chosen is the SUN2000-20KTL-M5 inverter produced by Huawei, coupled with the MGRS108 lithium iron phosphate battery pack manufactured by BYD with an energy storage capacity of 70.9 kWh. After simulation calculations, it can be concluded that the annual electricity generation of the system is 15.39 MWh, with a standardized daily ...
