

## Djibouti outdoor power a52

Does Djibouti have an electric power utility?

As a result of the interconnection between Djibouti and Ethiopia, the output of the Djibouti Electric Power Utility (EDD) rose by 13.6% in 2013. However, the increase in electric power generation is only partly passed on to the population. The number of customers only increased by 4.8% over the same period.

Does Djibouti have a power grid?

With regard to electricity, connection to the grid remains a critical problem for Djibouti's economy. As a result of the interconnection between Djibouti and Ethiopia, the output of the Djibouti Electric Power Utility (EDD) rose by 13.6% in 2013. However, the increase in electric power generation is only partly passed on to the population.

Does Djibouti need development partners?

While several partners are present in the energy sector, Djibouti's requirements in this sector remain so great that only a concerted effort and even greater need for investment by the development partners are required to improve the situation in this sector, which is of critical importance for the country's economy.
