As mentioned, on average solar tiles are more expensive than solar panels. For example, a standard 4 kW solar tile solar system will cost between £10,000 and £18,000. Compare this to the average solar panel system of the same size which costs an average of £7,000 - almost 50% cheaper. Why are solar tiles much more expensive than panels?

Solar roof tiles blend seamlessly with your roof and allow you to generate free, renewable electricity. Government research on factors influencing the adoption of solar technology in the UK found that over 42% of participants worried about the negative impact of solar panels on the attractiveness of their property. This makes solar roof tiles an excellent choice if you don't ...
