

A years-long energy project in El Salvador recently reached a milestone, as technology company Wärtsilä in November announced the installation and successful operation of a floating storage and ...

After a couple of fires at renewable energy battery storage sites in San Diego, a growing number of leaders in the county want to suspend the building of new ones. But that would undermine the county's soon-to-be and legally binding commitment to run on 100 percent renewable energy by 2045 via a new Climate Action Plan. Unless the county ...
