

Mikro-Pulssi Oy is a Finnish company specializing in fire safety. We design and manufacture automatic extinguishing systems and fire alarm systems for all types of locations: properties, industrial machinery, mobile units, and the defense industry. We are a leading manufacturer and supplier of automatic gas extinguishing systems in Finland.

The "Energia" trade fair, held biennially in October at the Tampere Exhibition and Sport Center, is a key event in Finland's energy sector organized by Expomark Oy, it distinguishes itself with a focus on future energy solutions. As one of ...

Industrial fluids Manufacturer, Industrial fluids supplier Gathering. Participating in exhibitions will help you understand the latest trends in the industry, expand your business network, find partners, and enhance brand awareness viting you to showcase your products and services at the exhibition and have face-to-face communication with ...

Beneq is also the only manufacturer of electroluminescent displays, which are fully enabled by ALD technology. Beneq offers wide variety of ALD equipment ranging from small research scale systems to industrial scale batch systems, fully automated wafer systems and Roll-to-Roll systems.

Founded in 2018, Polar Night Energy is a Finnish company specializing in the design and manufacture of high-temperature thermal energy storage systems. Our mission is to reduce combustion in energy production and accelerate the expansion of wind and solar energy. Combining a simple yet ingenious concept with cutting-edge technology, the Sand Battery ...

Developers Taaleri Energia and Merus Power have partnered to deploy a 30MW/36MWh battery energy storage system in Finland, one of the country's largest. The two will oversee the development of the battery storage ...

Industrial manufacturing companies in Finland are known for their highly advanced technology and innovation. They specialize in producing machinery, equipment, and components for various industries such as automotive, electronics, paper, and energy. These companies have a long history of manufacturing high-quality products that meet global standards, and they are ...

The Industrial Technology Exhibition showcases a wide range of products including advanced manufacturing equipment, automation and robotics, industrial machinery, renewable energy technologies, precision tools, smart manufacturing solutions, IT solutions for industry, and supply chain innovations.

A few large-scale projects have been added to wind farms, like ones for power generators Ilmatar Energy and EPV Energy reported on by Energy-Storage.news. Energy-Storage.news" publisher Solar Media will host ...

SpinDrive democratizes levitation. We increase energy efficiency of the industrial processes by at least 10% by providing active magnetic bearings (AMBs) with IoT capabilities to original equipment manufacturers. Magnetic bearings are levitating the rotational part of the machine completely eliminating friction.

ATA Gears is a well-known Finnish company that designs, manufactures and sells cogwheels. It serves many maritime customers, with prime export markets in Norway, Japan and China. ATA opened a new factory in Tampere in 2009, with the goal of beginning full-capacity manufacturing in 2013.

Industrial Control Manufacturer,Industrial Control supplier Gathering.Participating in exhibitions will help you understand the latest trends in the industry, expand your business network, find partners, and enhance brand awareness viting you to showcase your products and services at the exhibition and have face-to-face communication with ...
