

What is altivar machine atv12?

The product has been included in a Schneider Electric or Schneider electric's partners take-back program. Altivar Machine ATV12 is an offer of variable speed drives for commercial equipment and simple machines. It works at a rated power up to 0.75kW /1hp and a rated voltage from 200V to 240V AC.

What is the altivar 12 drive?

The Altivar 12 drive integrates as standard the Modbus communication protocol. This Altivar Machine ATV12 is designed for simple applications, in industry, commercial machines and HVAC machines such as conveyors, pumps, extractors, access barriers and treadmills. It conforms to IEC, UL and other international standards.

What is included in the atv12 manual?

This manual includes all Modbus addresses. It explains the operating mode specific to communication (state chart). This manual describes how to install the drive ATV12 baseplate following the conditions of acceptability. Relevant menu This file offers the option of sorting and arranging the data according to any criterion chosen by the user.

How do I configure the atv12 factory settings?

ATV12 factory settings enable drive operation with most applications. You can use SoMove software to customize the "MyMenu" and FULL menus of CONF mode (see page 44), by selecting which menus and parameters will be hidden or accessible for the user.

Does atv12 need a voltage adaptor?

The ATV12 drive internal supply is 24 V rather than 15 V on ATV11. When replacing ATV11 drive with an ATV12, a voltage adaptor, reference VW3A9317 must be connected to the 24 V supply if it is used to supply external automation systems. Using the 24 V to supply the LI does not require any adaptor.

How do I connect my atv12 drive to the atv11?

14 N for size 1 and 20 N for sizes 2 and 3). Pay attention to the input ground terminal located on the right of the connector (was on left on ATV11). The ground connection is clearly indicated on the input power terminal cover and the screw colour is green. The ATV12 drive internal supply is 24 V rather than 15 V on ATV11.

Schneider Altivar 12 (ATV12) series AC Inverter for 0.75kW (1HP) 230V 3 Ph motor in VxF or Sensorless Vector control to 4.2A. Converts fixed frequency single phase 230V input to variable frequency three phase 230V for a standard AC Induction motor. Size 1C2 - 72mm Wide x 131.2mm Deep x 143mm High. IP20

Inverter atv12

Schneider Altivar 12 (ATV12) series AC Inverter for 1.5kW (2HP) 230V 3 Ph motor in VxF or Sensorless Vector control to 7.5A. Converts fixed frequency single phase 230V input to variable frequency three phase 230V for a standard AC ...

Schneider Altivar 12 (ATV12) series AC Inverter for 0.37kW (0.5HP) 230V 3 Ph motor in VxF or Sensorless Vector control to 2.4A. Converts fixed frequency single phase 230V input to variable frequency three phase 230V for a standard AC Induction motor. Size 1C2 - 72mm Wide x 121.2mm Deep x 143mm High. IP20
