Whether you already know what you need or are still exploring your options, we're here to help.

Who are the best solar installers in PNG?

When it comes to solar installation, names such as Plasmatronics, Powertech and Suntech have been serving the PNG community, providing power in the harshest locations, most notably the Kokoda Trail Emergency Radio installations. Who did we turn to, to protect our building from power surges? We installed a Novaris inline filter.

Who is Te (png)?

TE (PNG) has been acclaimed as the 'go to' provider. TE (PNG) offers the best of products to match the demanding conditions of PNG when it comes to power conditioning, protection and supply. Harsh conditions require equipment made to endure the rigours applied to them. In PNG only the toughest survive.

Does Te (png) use a Novaris inline filter?

We installed a Novaris inline filter. Novaris is Australian made and designed to meet any conditions. Leveraging Australian-certified manufacturers, TE (PNG) has focused on solutions that are remotely monitored and managed via mobile app. This allows for real-time tracking and historical analysis of power usage and performance.

Why should you choose the best equipment in PNG?

Harsh conditions require equipment made to endure the rigours applied to them. In PNG only the toughest survive. That is why we have partnered with the best brands to ensure a quality product and we back this up with unprecedented service.

Why should you choose Te (png)?

TE (PNG) has a strong tradition of being a diversified company. This is obvious when you walk into one of our showrooms. Our aim is to provide a unique shopping experience where you find the perfect solution for your specific needs and expert assistance to get you the best bang for your buck.

Buy Wholesale Grid-Tie Inverters for PV Systems? Simply put, a grid-tie inverter converts direct current (DC) into alternating current (AC) suitable for injecting into an electrical power grid, normally 120 V RMS at 60 Hz or 240 V RMS at 50 Hz. Grid-tie inverters are used between local electrical power generators: solar panels, wind turbines, hydroelectric, and the ...
