Our vision is to harness natural energy to power Egypt and the MENA region at the lowest possible prices. "A transition to clean energy is about making an investment in our future." - Gloria Reuben. Our Services . On-grid Systems. On-grid means your solar system is connected to your local utility grid. This is what most homes & businesses ...

Electricity supply contracts with a capacity greater than 500 kW: The cost method is based on both the monthly electricity consumption (kWh) and the maximum annual load (kW). The cost of the second type of contract is usually higher than the first, so these consumers must consider the consumption limit and maximum load.

The Egyptian government constructed 81 desalination plants with a total capacity of 913.69 m<sup>3</sup> /day in the governorates of (North Sinai - South Sinai - Red Sea - Matrouh - Ismailia - Suez, such as El Alamein and El Galala desalination plants with a capacity for each of 150,000 m<sup>3</sup> /day.

Industrial real estate has been a mainstay of economic development for decades. Over time, industrial developments have shifted from areas like 6th of October City to large-scale zones that host one manufacturing segment - for example, the \$2.2bn textile complex in Al Sadat City. In 2014-21, 17 such complexes in 15 governorates were established, with

On the other hand, if your home country has a different voltage supply, such as 110-120V, you will need a travel adapter with a built-in step-down power converter or a stand-alone portable power converter suitable for Egypt's 220-240V power supply.
