ITAPOWER is an Italian technology company specializing in the research, development, and construction of power supply systems. We provide turnkey solutions for residential and commercial customers, with a product catalog that includes UPS, Telecom power & Data Center solutions, batteries, IT infrastructures, and more.

The main difference between our single and dual power supplies is that dual power supplies provide a redundant power supply in the case of a failure of one power supply on our CMVRs (currently we only use dual power supplies on our 620 and 820 model CMVRs and not in any of our regular bridges). Now you have a basic idea of the function of power ...
