In Liberia, thousands of students have no choice at night but to use kerosene lanterns and open-flame candles in order to be able to study or read. The smoke from these light sources is hazardous to their health. The flames are also a fire hazard. This project is providing safe, renewable, solar-powered lights to kids and youths in Liberia. Kerosene lanterns used by ...

Please note: External light sources, such as other garden lights or street lighting, can sometimes throw a spanner in the works. Due to the artificial lighting, the sensor simply perceives the surroundings as too bright to switch on the solar light. In addition to the twilight sensor, many of the solar lights still have an on and off switch ...
