

Lobamba Solar Lighting Sign

What is solar illuminations?

Solar illuminations is your one stop lighting solution for light billboards, and other sign types including sign cabinets, monument signs, entrance signs and business signs. We can supply solar LED modules, or LED ribbon to install within sign cabinets or channel lettering.

What is a solar sign lighting system?

Solar sign lighting systems can be used for commercial, residential or neighborhood signs, for internal or external illumination. Solar illuminations is your one stop lighting solution for light billboards, and other sign types including sign cabinets, monument signs, entrance signs and business signs.

Where are solarboom solar sign lights located?

Unlike most solar lights which rely on a single, small round or square low-cost solar cell, the PV cells in SolarBoom solar sign lights are located along the entire length of the unit. All SolarBoom models are designed to produce reliable, bright light output that lasts for days, not hours.

Are solar-powered sign lights sustainable?

Illuminate your signs sustainably with SEPCO's commercial solar-powered LED sign lights. Our innovative solar solutions eliminate the need for traditional utility power, providing significant cost savings by removing the necessity for trenching electric wires, and eliminating ongoing electricity bills.

What are outdoor solar powered LED sign lights?

Outdoor solar powered LED sign lights are the perfect solution for illuminating signs in remote locations, or areas where it's too costly to access mains electric power.

What is a commercial grade solar sign light system?

This commercial grade, solar sign light system includes three or four 39" long, low profile, LED linear light bars. Additional light bars can be added for a customized system.
