Features. Hybrid AC/DC Driven: Choose between power from the grid or a direct connection to a photovoltaic (PV) array without the need for an inverter, battery, or charge controller. 100% Energy Saving in Daytime: Power sourced directly from solar during the day for maximum energy efficiency. Plug and Play: Easy setup with MC4 connectors for simple attachment to PV wiring.

Solar energy harnesses power from the sun and can be used as an alternative to fossil fuels. It is a renewable and clean energy source. Solar power systems generally consist of solar panels that convert sunlight to electricity, solar inverters that change the direct current to alternating current, and batteries that store energy for use when the sun is not shining.

1.5 Ton Battery Direct Solar Air Conditioner | Solar Air Conditioner By Exalta With 6 Panel Each Of 350 Watt & 3400 VA Lithium Inverter With 300 AH Lithium Battery INR 500,000.00 Original price was: INR500,000.00. INR 270,032.00 Current price is: INR270,032.00.

In recent years, the advancement of solar energy technologies has opened up new possibilities in various sectors, including air conditioning. Solar air conditioning systems harness the power of sunlight to provide cooling, offering ...

Moseta is delighted to have partnered with Radio Mirchi to revolutionize their energy consumption with our innovative DS (Direct Solar) model of Solar Air Conditioner. This cutting-edge solution is specifically designed to harness solar energy, ensuring sustainable cooling ...
