

Managua s new outdoor power supply

What happened to the power sector in Nicaragua?

Go To Top Nicaragua's power sector underwent a deep restructuring during 1998-99, when the generation, transmission and distribution divisions of the state-owned Empresa Nicaraguense de Electricidad (ENEL) were unbundled, and the privatization of the generation and distribution activities allowed.

How many MW generators are there in Nicaragua?

To address this crisis, the Government of Nicaragua decided to install 60 MW with diesel generators, in 2008 60 Mw with bunker generators, and between 2009 and 2010, 120 MW with bunker generators . All of those operated with fuel which is sold by the Government of Venezuela at subsidized prices.

Why is infrastructure important in Nicaragua?

The Nicaraguan government considers the improvement of the infrastructure especially of energy service a key factor for economic growth and for the alleviation of poverty in rural areas.

What is off-grid electrification in Nicaragua?

Off-grid electrification in Nicaragua today consists mainly of installing diesel mini-grids, operated by ENEL to serve some larger villages in remote rural areas, often at heavy financial losses which need to be financed by the Government of Nicaragua on a continuous basis. In a few cases hydroelectric and solar home systems have been implemented.
