Car batteries from BMS technologies. Your car battery has a vital job to do, from starting your engine to acting as a surge protector for your car's computer and powering things like your lights, fans, sound system, satnav and wipers. When you buy a new car battery, you get to breathe new life into your vehicle and improve its performance.

The State of Charge (SOC) is a measurement that indicates how much charge is left in the battery. A BMS continuously monitors the SOC to ensure that the battery is neither overcharged nor discharged too much, which can cause irreversible damage. By carefully managing the SOC, the BMS helps maximize the battery's life and capacity. ...
