

# Movable power box processing

Alibaba offers high-quality movable power cases for your devices. Find a range of movable power cases to suit your needs from trusted suppliers. All categories. Featured selections. Trade Assurance. Buyer Central. Help Center. Get the app. Become a supplier. Alibaba;

HAJOMECH INDUSTRIE TECHNIK GmbH is a high-tech company located in Munich, Germany, and engages in designing, manufacturing and marketing of industrial equipment. We have considerable expertise in industry movable power supply, power transmission, bulk material processing, clean new energy technology, gas membrane separation technology and other fields.

The invention relates to a processing box with a movable part, which comprises a first unit and a second unit which are combined with each other, wherein when the processing box works, the first unit and the second unit are close to each other, when the processing box does not work, the first unit and the second unit are separated from each other, the movable part is arranged in ...

Power Box & Energy (????????????) Wine Cellar & Wine Cooler (????????) Air Conditioners (???????? Commercial Vehicle & RV) Awning (????????????)

The utility model relates to a processing box with a movable part, which is detachably mounted to an electrophotographic image forming apparatus provided with a force application part, comprising a first unit and a second unit which are combined with each other, the movable part comprises a mounting part and an action part which can move relatively, the mounting part is ...

The utility model discloses a mobilizable electric power batch meter, including box, chamber door and metering equipment, the positive one side swing joint of box has the chamber door, and the middle part fixed mounting of diapire in the box has the heat dissipation fan, and the both sides of heat dissipation fan all are provided with the wire mouth, and the equal fixedly connected with ...

Power Anywhere. BoxPower's containerized microgrids are ideal for remote, off-grid applications. We design continuous power solutions for the toughest environments, offering a clean, affordable alternative to diesel generators. ... "BoxPower has streamlined the design, procurement, and installation process for solar microgrids in one of the ...

The Moduloo Ex range consists of ergonomic portable electrical stations, providing power and autonomy for professional applications requiring an external power source. Presented in the form of robust and waterproof solutions, it ...

When the processing box (1) is in operation, the first unit (2) and the second unit (3) move close to each other,

## Movable power box processing

and when the processing box (1) is not in operation, the first unit (2) and the second unit (3) are separated from each other; the movable part (6) is mounted in the processing box (1) in such a way that at least one part of the ...

Disclosed is a processing cartridge (1) having a movable assembly (6). The processing cartridge includes a first unit (2) and a second unit (3) coupled to each other. When the processing cartridge is in operation, the first unit (2) and the second unit (3) move close to each other, and when the processing cartridge is not in operation, the first unit (2) and the second unit (3) are ...

This portable power station is ready to use right out of the box. Perfect for charging smartphones, tablets, fish finders, two-way radios, portable 12V fridges and many other small 12V devices. If the power goes out, or you are camping in a remote location, the PWRbox Mini 15Ah can keep your favorite small devices powered up and ready to go.

The utility model discloses a drying device for movable tea processing production, the power distribution box comprises a box body, box top fixed mounting has first motor, first motor output end fixedly connected with first motor shaft, and first motor shaft passes through the bearing and rotates with the box top to be connected, the equal fixedly connected with rotor plate of first ...

The utility model discloses a portable solar mobile power-source box, which consists of a power-source box, a solar receiver part, an inverter, a lead-acid battery, a control circuit board and an input/output interface that is arranged on the power-source box, wherein, the power-source box further comprises a box body, a box cover that is arranged on the box body and can be ...

The invention relates to an electronic product, in particular to a multifunctional movable power supply. The multifunctional movable power supply comprises a box body and is characterized in that the box body is internally provided with a storage battery; the top part of the box body is provided with a sound box, the side surface of the box body is provided with a porous socket ...

The invention provides a movable police box, which comprises a base, a housing, a plurality of wheels, a control platform and a power supply device, wherein the housing is fixed on the base; the wheels are arranged beneath the base; the control platform comprises a central processing unit; the external part of the housing is provided with an alarm lamp and/or a speaker and ...

A movable power box, which can be used independently and is convenient and safe to use, comprises a box body, wherein, a control panel is arranged in the box body, and wire-in terminal buttons and wire-out terminal buttons are mounted on the panel and are connected in series; a leakage protector is connected in series between the wire-in terminal buttons and the wire-out ...

The utility model discloses a movable power box capable of being integrally disassembled and assembled, which relates to the field of power boxes and comprises four groups of rolling wheels arranged on the lower

## Movable power box processing

surface of a box bottom plate, and also comprises two groups of first side plates and two groups of second side plates, wherein a connecting plate is arranged above the ...

The movable design enhances portability, making it ideal for both stationary and mobile applications. This power station features multiple output options, including AC, DC, and USB ports, to accommodate various devices and appliances. Specifications: Battery Capacity: 5120Wh; Battery Type: LiFePO4 (Lithium Iron Phosphate) Inverter Power: 7000W
