

# Msi portable power bank

What features should you consider when buying a portable power bank?

Pass-through charging is another feature to consider; with it, you can charge your device and a portable power bank simultaneously. That's convenient if both your phone and backup battery are running on empty.

What are the features of MSi laptops?

One of the major features that have been added to MSI laptops is PD (Power Delivery) Charging. As the power efficiency increases along with the improvement of the semiconductor process, the laptops will have longer battery life compared to laptops with older processors while they have the same battery capacity.

Does MSI laptop have PD charging?

The long-awaited MSI laptop with intel 13th gen processor has arrived. One of the major features that have been added to MSI laptops is PD (Power Delivery) Charging.

Should you buy a portable battery or power bank?

Watching your phone or tablet steadily run out of power when you're nowhere near an outlet is stressful. But there's an easy solution: a portable battery or power bank. These are available in many sizes and capacities and can include handy features like fast charging and extra ports.

How much power does a laptop power bank have?

With a maximum power of 130W and two DC outputs - not to mention a variety of DC adapters included - this power bank is compatible with many laptops. That makes it useful for households with multiple types of laptops and devices. Unfortunately, this isn't TSA-approved, due to its 185Wh, over the 100Wh TSA standard.

Can a power bank increase battery life?

One of the alternative ways to increase battery life furthermore is by charging. Like your smartphone, bringing a power bank with you will increase battery life to 2 or 3 times- or even more, depending on your power bank's capacity.

Hi I recently bought a MSI GF63 thin 12ve-292-it and I would like to extend the battery life. I'm quite sure that I can't charge it via usb-c using a powerbank. It is possible to charge the laptop using a powerbank and a dc power adaptor and if so what specs do I need for the powerbank?
