Does Nauru have a power supply?

Nauru's power supply was provided by diesel-powered generators maintained by the Nauru Phosphate Corporation, however, since its dismantling and government restructuring, the Nauru Utilities Authority (NAU) has taken over responsibility for the power supply.

Does Nauru need solar power?

"Now Nauru's power generation mainly relies on diesel. That's expensive and would pollute the environment," said John Scott, who has been working for the project since 2022. "There is a lot of sunshine here and it's good for solar power. I believe electricity supply here will be much better when the project is completed," Scott told Xinhua.

Why did Nauru go without electricity?

Power was supplied by Nauru Utilities Corporation (NUC), the country's only power utility, using poorly maintained 40-year old generators that led to higher diesel consumption and low energy efficiency. High generation costs were passed on to consumers, many of whom couldn't afford to pay so they went without electricity.
