

Niamey Solar Energy Systems Company

Is Niamey a good place to get electricity?

The infrastructure, located around ten kilometres from the capital Niamey, was built under the aegis of Nigerien Electricity Company (NIGELEC) with a view to improving the city's electricity supply. Niamey, the capital of Niger (population 1.5 million), has just seen an improvement in its electricity supply.

What is Niamey's new power plant?

The facility, which is located about 10 kilometers from the capital, Niamey, was developed as part of improving the city's electricity supply under the aegis of the national electricity company, Nigelec. Production will hit 53 GWh in the first year and will be fed into the Nigelec network. The project secured EUR30 million.

Who financed a solar power plant in Niger?

The European Union, the French Development Bank and the government of Nigerco-financed the installation. A French consortium made up of Akuo and Sagecom has finished building a 30 MW solar power plant in Gorou Banda, Niger. The Niger government had initially planned the project to have a capacity of 50 MW.

What is the largest solar power plant in Niger?

This has been made possible by the commissioning of the Gourou Banda solar power plant, with a capacity of 30 MWp. Equipped with 55,608 solar panels, each with an output of 540 W, this is the largest solar photovoltaic park in operation in Niger.

Will a 30 MWp photovoltaic power plant improve Niger's electricity supply?

FIND IT! Mahaman Moustapha Bark, Niger's Minister of Energy, has announced the commissioning of a 30 MWp photovoltaic solar power plant. The infrastructure, located around ten kilometres from the capital Niamey, was built under the aegis of Nigerien Electricity Company (NIGELEC) with a view to improving the city's electricity supply.

Does Niamey have an electrification rate?

In 2020, Niamey had an electrification rate of 92.95% according to figures from the national statistics institute. However, the city suffers from load shedding, despite the extension of thermal production capacities in 2017.

Mahaman Moustapha Bark, Niger's Minister of Energy, has announced the commissioning of a 30 MWp photovoltaic solar power plant. The infrastructure, located around ten kilometres from the capital Niamey, was built under the aegis of Nigerien Electricity Company (NIGELEC) with a view to improving the city's electricity supply.
