

Outdoor power supply brand exported from St Petersburg Russia

Who is the best power supply company in Russia?

In the world of power supplies (PS), it is quite a well-known company on the Russian market. I know that MEAN WELL company is the absolute leader on the PS market. I became curious about comparing these companies.

Which power supply systems are used in Russia?

The power supply systems are fully agreed with the operational conditions, accepted on the territory of the Russian Federation. Only the modern high tech units are used for the power supply system production, supplied by Eaton. UPS.

How much power supplies are imported to Russia?

Table 5. Import of power supplies under the customs codes 8504408200 and 8504409000, in 2018 by distributors and brokers. The import volume of 32 distributors and brokers of electronic components to Russia amounted to \$87 million.

Is mean well a good power supply manufacturer?

According Micro Technology Consultant Report dated March 2017, it ranks number 5 among international manufacturers of (direct current) power supplies. Unlike the commercial model offered by the first five manufacturers designed for ODM/OEM, regular power supplies of the company's own brand account for almost 99% of MEAN WELL's sales turnover.

How much does Russia import from distributors & brokers?

The import volume of 32 distributors and brokers of electronic components to Russia amounted to \$87 million. It's an extremely important stipulation, since this customs code implies not only import of the products that the companies listed in Table 4 specialize in. It can be exemplified by SIEMENS AG from Table 2.

Who makes mornsun products in Russia?

I should mention that until early 2019, ECO was the only official distributor of MORNSUN products in Russia, having been extremely successful in promoting the leader MORNSUN to the Russian market. ECO company exists since 2004, dealing with supplies of almost PS only. Here is what the company's website tell us.
