

# Outdoor power supply odor

Why does my PSU smell burning?

Though, if you're smelling a burning smell even when the system is turned off (but plugged in) at a guess I would say it's probably something to do with the 5VSB inside the unit that has fried. Out of curiosity, what model is the PSU?

Why does my PSU smell like a cigarette odor?

New electronics are likely to have just a bit of odor when first turned on and heated up. The problem should not continue barring some defect or improper power connection. Do not, under any circumstances, do anything while the PSU is powered on and do not make any attempts to open the PSU.

Why do I Smell a burning smell when plugged in?

Good. May as well remove the PSU from the system. When you take it out check to see if any of the cables to the components have melted. Though, if you're smelling a burning smell even when the system is turned off (but plugged in) at a guess I would say it's probably something to do with the 5VSB inside the unit that has fried.

A burned smell and unexpected restarts is almost certainly a psu issue. Concidering the gold psu blew the breaker i would never use it again. If the psu is under warranty, rma it. ... Oct 19, 2020 #1 Today i received my new EVGA BQ 650W, and it has a really weird plastic smell, like chemical, is that okay ? or should i return it ? ... If the smell continues, gets stronger, changes, or if other things start happening then return ...

So I have a problem with my PC, or power supply. Very unsure right now.. I have deep cleaned any dust, checked all parts to see if anything looks like its frying. Machine isn't over heating neither.. At first I thought it was giving out this horrid smell due to hot dust being breezed around. But this is making my chest hurt somewhat.
