What is an outdoor Uninterruptible Power Supply?

An outdoor Uninterruptible Power Supply is a power solution designed for critical applications where it's essential that equipment stays running in harsh outdoor environments and significant temperature variations, where an ordinary UPS would fail. Trust TSi Power for these applications.

What is an outdoor UPS power system?

Encased in a durable IP68 housing, it guarantees durability even in harsh weather conditions. With a wide input voltage range (100 to 240V AC) and operating temperatures from -40°F to 140°F, the Outdoor UPS Power System ensures consistent performance and system reliability in inclement outdoor environments.

Why is an uninterruptible power supply necessary?

An uninterruptible power supply (Uninterruptible Power Supply or UPS) has become a necessity rather than a choice in various sectors of life, including industrial facilities, hospitals, homes, and offices. The electrical network may experience situations such as high or low voltage, sudden voltage jumps, or frequency changes.
