

Pony outdoor power supply

Where can I buy a pony 500 portable power station?

FJDynamics' PONY 500 Portable Power Station is now available on FJDynamics Official Online Store(store.fjdynamics.com). EU orders start shipping immediately, while US orders will be shipped by May 2023.

What is a pony 500 battery?

By using FJDynamics's proprietary ternary lithium battery technology, PONY 500 has an energy density 30% higher than traditional lithium-ion batteries. The light and compact design, which boasts half the weight and size of power stations with the same power capacity, means that users can get the same power outdoors with less physical load.

What makes the Pony 500 a great off-grid power supply?

The PONY 500 comes in with half the size of competing products in the market and game-changing features that set it apart as a product in the market of off-grid power supplies. After an extensive analysis of the market and product use cases, the product team at FJDynamics developed the PONY 500.

Is the pony 500 a good off-grid power supply?

The PONY 500 comes in half the size of competing products in the market and game-changing features that set it apart as a product in the market of off-grid power supplies. After an extensive analysis of the market and product use cases, the product team at FJDynamics developed the PONY 500.

How does the Pony 500 work?

The Pony 500 works flexibly for different needs and scenarios. It works in extreme temperatures from -20°C to 55°C, a wide temperature threshold from other products in the market. The product also has a modular design, allowing it to be combined with accessories from solar panel modules, MPPT or DC add-ons.

How do I check the power level of my Pony?

On the left side of the Pony, you will find the input ports covered by a rubber cover. It is attached to the Pony via a lanyard. Below the ports are the power button and LED lights that will display the station's power level. There are five LED lights, each indicating 20% of the power.
