What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Ugreen. What to Know Before Purchasing a Portable Power Station

What devices can a portable power station run?

So long as your portable power station has the right ports and enough capacity, it can run a massive range of devices, including phones, laptops, and desktops. Higher capacity units will also let you power appliances and charge electric vehicles. Check which ports your preferred model has, including USB Type-A and Type-C, AC and mains sockets.

Why is a portable power station called a 'portable'?

The latter still get to be called 'portable' because they usually have wheels. A portable power station is, in effect, a big battery backup. Unlike a generator, which continues to provide the same level of power as long as it's running, even the best portable power station runs down.

What accessories do you need for a portable power station?

One of the most common accessories is going to be a cord to connect to similar power stations in series, often times doubling your power output. Some portable power stations have a light bar built into the housing, which is useful for seeing at night. Anker's Solix C800 Plus also includes extendable camping lights.

What are the main features of a portable power station?

Most portable power stations have main common features (such as a battery and ports to pull power from that battery). However, port options, battery sizes, UPS ability, and recharging ability are some features that could vary from product to product.

What types of batteries are used in portable power stations?

Battery technology: There are various battery technologies, but the main ones used in portable power stations today are types of lithium-ion (Li-ion) batteries, often lithium nickel manganese cobalt oxide (Li-NMC) or lithium iron phosphate (LiFePO<sub>4</sub> or LFP).
