

Portable power bank 2000w

What is a portable power bank?

A portable power bank, as described in the present invention, is a device that enables the supply of electric power for charging other electronic devices at any time. It also offers data access and expansion of access devices via local or wireless networks.

What is the B2000 power station?

The B2000 is a portable power station designed to keep you powered up during camping trips, outdoor events, and emergency situations. It offers versatile charging options and can be charged using three different methods.

How can I charge a B2000 power station?

The B2000 lets you charge your power station using three different methods. You can recharge it using AC power, DC power, or solar panels. Simultaneously power your devices while you recharge, making it convenient for use at home, on the road, or outdoors.

Can a portable power station be used as a solar generator?

Yes, the Yoshino B2000 can be transformed into an eco-friendly solar generator with optional Yoshino solar panels. Effortlessly recharge and enjoy limitless power, all while embracing sustainable energy solutions. From camping trips to outdoor events and emergency situations, this power station has you covered.

What is the warranty period for the B2000?

The B2000 is built to last, with a 5-year warranty and ETL certification that ensure its quality, reliability, and compliance with industry standards. Transform the solid-state portable power station into an eco-friendly solar generator with optional Yoshino solar panels.

How many USB-C ports does the B2000 have?

The B2000 features two USB-C ports to power up your devices with ease and efficiency. In addition to USB-C, it also includes a wireless charging pad and other ports for charging a wide range of devices simultaneously.
