How much do solar panels cost in Ireland?

The cost of solar panel installation in Ireland can vary depending on various factors. The average cost typically ranges from EUR6,000 to EUR18,000. However, grants are available to help offset these costs and make solar panels more affordable for homeowners. Grants can reduce the installation cost to a range of EUR3,200 to EUR15,600.

What is a solar inverter?

A solar inverter is an important part of a solar panel system. It transforms the solar panels' direct current (DC) electricity into alternating current (AC), which is the type of electricity we use in our homes. As a result, we can use the clean energy that the sun produces to power our appliances and electronics.

On average, homeowners can expect to spend between EUR4,000 and EUR12,000 for a residential solar panel system. This price range typically covers the cost of the panels themselves, inverters, mounting hardware, wiring, and the installation labour. Breakdown of Upfront Costs vs. Long-Term Savings
