What makes a good cordless power tool brand?

Our scoring criteria for 2024's ranking of cordless power tool brands are based on the following key aspects:

**Battery Technology:** A crucial factor, especially for cordless tools. Brands like Milwaukee Tools and DeWalt have pioneered innovations in lithium-ion batteries and brushless motor technology, offering longer battery life and more power.

What is the best cordless power tool brand in 2024?

After a thorough analysis and considering various factors like performance, durability, technology, and user feedback, Milwaukee Tools emerges as our top pick for the best cordless power tool brand in 2024. Here's why:

**Innovative Technology:** Milwaukee's constant innovation, especially in battery technology and tool ergonomics, sets it apart.

What is the future of cordless power tools?

Looking forward, the cordless power tool market is set for further innovation and growth. As battery technology advances, and as brands continue to focus on smart tool integration and sustainability, we can expect to see tools that are not only more powerful and versatile but also user-friendly and environmentally conscious.

Does Milwaukee have a 12V power tool system?

Milwaukee's goal has been to offer fatigue-reducing hand tool replacements, and they've kept at it. This is the only 12V-class cordless power tool system that is consistently expanded. Milwaukee has been developing M18 as a trade-focused cordless power tool system, and you won't find any dialed-down "special buys" here.

Is DeWalt 20V Max cordless power tool safe?

Dewalt's 20V Max cordless power tool system has been steadily expanding, with more tools tailored to the needs of carpenters, electricians, plumbers, and other pro users every year. The 20V Max system tends to be a safe bet.

Is Milwaukee M18 a good cordless power tool system?

Milwaukee has been developing M18 as a trade-focused cordless power tool system, and you won't find any dialed-down "special buys" here. Their tools - especially the M18 Fuel line of brushless cordless solutions - are pricey, but widely well-regarded. The M18 system has seen constant expansion over the years, often with industry-first solutions.

Makita XMT03Z 18V LXT Lithium-Ion Cordless Multi-Tool, Tool Only Versatile And Powerful . Trades of all kinds are turning to oscillating multi-tools for a range of applications, and the Makita 18V LXT Lithium-Ion Cordless Multi-Tool (model XMT03Z, tool only) delivers corded speed and power without the cord.
