

Uninterruptible power supply customization company in Rotterdam the Netherlands

What is an explosion-proof uninterruptible power supply system (UPS)?

Orga helps make daily operations easier, with Orga's Explosion-proof (EX) Uninterruptible Power Supply system (UPS). What does an Explosion-proof Uninterruptible Power Supply system do? The batteries of our EX-certified UPS (Uninterruptible Power Supply) continue to supply power when the normal power supply is cut off.

What is an uninterruptible power supply (UPS)?

An Uninterruptible Power Supply (UPS) is used for various applications such as computer, telecom, industrial, or medical equipment. It's crucial for applications where power must not fail, for instance, within operating rooms, data centers, tunnels, and telecom networks.

Why do I need an ex-certified UPS (uninterruptible power supply)?

The batteries of our EX-certified UPS (Uninterruptible Power Supply) continue to supply power when the normal power supply is cut off. This ensures that critical systems keep running in order to keep the asset safe and compliant with relevant regulations in every situation, even in hazardous areas.

What is a diesel rotary uninterruptible power supply?

Data centers, airports and hospitals are in need of an exceptional degree of safety, reliability and stability in their power supply. The Diesel Rotary Uninterruptible Power Supply (DRUPS) combines a flywheel-powered, No-Break UPS and a diesel generator. Most uninterruptible power supplies are powered by battery or flywheel.

How is the ex Ups built?

The EX UPS is built in accordance with the system sizing calculation and based on client requirements. Each system is built up in 1 x 100%, 2 x 100%, 2 x 50% or N+1 configuration and customised to the client's preferred setup. Each system is built up from one or more EX battery boxes and one or more EX battery chargers for even more reliability.

Who is DBR power supply?
