

What is an explosion-proof uninterruptible power supply system (UPS)?

Orga helps make daily operations easier, with Orga's Explosion-proof (EX) Uninterruptible Power Supply system (UPS). What does an Explosion-proof Uninterruptible Power Supply system do? The batteries of our EX-certified UPS (Uninterruptible Power Supply) continue to supply power when the normal power supply is cut off.

What is an uninterruptible power supply (UPS)?

An Uninterruptible Power Supply (UPS) is used for various applications such as computer, telecom, industrial, or medical equipment. It's crucial for applications where power must not fail, for instance, within operating rooms, data centers, tunnels, and telecom networks.

Why do I need an ex-certified UPS (uninterruptible power supply)?

The batteries of our EX-certified UPS (Uninterruptible Power Supply) continue to supply power when the normal power supply is cut off. This ensures that critical systems keep running in order to keep the asset safe and compliant with relevant regulations in every situation, even in hazardous areas.

How many kVA does an ex Ups supply?

Over 1,225 kVA in EX UPS's supplied to offshore assets, represented by 350 charger modules in the last 10 years. This system is designed to meet both your specific requirements and is zone 1 certified for the use in a gas hazardous area. This robust system has a long life span and requires minimal maintenance.

Will Croonwolder & Dros provide emergency power installation for the Botlek tunnel?

They are a 24-hour business, and therefore, a continuous power supply is vital. Croonwolder & Dros and ELINEX will provide emergency power installation for the Botlek Tunnel until 2035. On the A15 between Rotterdam and Europoort, 111,000 cars traverse the Botlek Tunnel daily.
