How long does it take to get a repaired tool back?

You normally receive the repaired tool back after three to five working days at the latest.

After you have reassembled the battery pack, check the battery. Use the charger of the cordless drill battery that came with the drill. Usually, along with the cordless drill, you will receive a charger. Put the battery on the charger and check for the red light if it's blinking. Wait for an hour and a half and then re-check the battery.

At Bulldog Battery we take great pride in supplying both contractors and the public with the highest power battery cells available for their cordless tools. By rebuilding your current battery pack we can save you a great deal of money while giving you a much stronger cell than the original. This also comes with a one-year free replacement warranty.

Watch out for any worn-out parts. Like most tools, power tools do deteriorate with time and as such, you'll want to watch out for any parts that may compromise the proper operation of the tool. Maintain the batteries at all times. The key thing here is to ensure your batteries are stored correctly in climate-controlled environments.

We replace every cell in the battery, so it is as though we are placing a brand new battery into the current case. We can repair and rebuild lithium (Li-ion, LiFePo4) and Ni-Cd / Ni-Mh batteries for Electric Bikes and E-Scooters, laptops and power tools, skateboards and solowheels, lawn care and snow removal equipment, vacuum cleaners, flash ...

Hire a Power Tool Battery Specialist. While a power tool repair specialist can fix most issues concerning your DeWalt battery, hiring a power tool battery specialist, such as the team at MTO Battery, might be the quicker and more efficient option.

Our "Repair Parts Finder" elevates your experience whether you are in search of Makita tool parts or want to buy DeWalt tool parts. Besides convenient search, easy-to-navigate website, great customer care and availability of all popular payment methods end your journey on a high note.

Ultimately, the best way to revive your cordless drill battery is to invest in a high-quality replacement battery
