Choose inverter.com to buy your solar inverter benefit from the superior quality, best price and flexible delivery.

Who is solar wholesale pvxchange?

Our team of solar experts of solar wholesale pvXchange is always available to you. Since 2004 we are wholesaler for photovoltaic components like solar modules, solar inverters, solar batteries, mounting systems, wallboxes and accessories. With us you will not only find all current brands, but also replacement modules (new and used).

Which company makes the best solar inverter?

According to IHS Markit, Growatt is one of the world's top 10 inverter brands and is the world's No.1 residential inverter supplier. It also ranks among the world's top 5 suppliers of string inverters for C&I solar projects.

What is a solar inverter?

A solar inverter or photovoltaic (PV) inverter is a type of power inverter that converts the variable direct current (DC) output of a photovoltaic solar panel into a utility frequency alternating current (AC) that can be fed into a commercial electrical grid or used by a local, off-grid electrical network.

How much does a solar inverter cost?

For an average-sized installation, inverters typically range between \$1000 and \$1500. That cost can go up quickly though as the installation gets bigger. Each year, the National Renewable Energy Lab performs a cost benchmark of the solar industry, looking at average installation costs, inverter and panel costs, and a host of other related topics.

Are our solar inverters made in Britain?

Our solar inverters are always produced to meet strict British manufacturing regulations irrespective of country of delivery. Double backed British guarantee you can trust. Enquire in-house about our Mega Watt price match. Remote access Monitor inverter and consumption via WiFi mode (optional) No battery mode
