Zimbabwe tile roof plus solar energy

Solar Tiled Roof(TM) combines solar and roofing functionality into a perfect energy production system without compromising the visual appearance of your home. The building-integrated modules for tiled roofs interlock with nearly all flat concrete and clay tiles, leaving your home as beautiful as it ever was.

What are solar roof tiles? Solar roof tiles are just like smaller, compact solar panels. However, rather than being positioned and bolted onto an existing roof like a regular solar panel, solar roof tiles are incorporated into the design of the roof itself, thanks to their tile-like design. This allows them to blend seamlessly into a home's existing roofline.
